Our annual directory of manufacturers, suppliers and service providers specializing in housing and community development.
MAXIMIZE SERVICE DELIVERY WHILE MINIMIZING IN-PERSON MEETINGS AND PAPERWORK

- Accept applications online
- Expedite move-in, interim and annual certifications
- Update waiting lists without mass mailings
- Ensure consistency from initial intake, reviews and throughout residency
- Connect with residents, participants and landlords for service requests, payments, inspections and more

“We’ve drastically reduced the number of people coming into the office for assistance by making client-facing functions available online with RentCafe PHA.”

SEAN GRIFFITH
Executive Director
Hagerstown Housing Authority

When systems like Emphasys Elite, Yardi, and other leading Public Housing Authority (PHA) software are adequately integrated, they can streamline processes, optimize workflows between departments, and create continuity between other enterprise systems within your organization. However, many times Public Housing Authorities struggle with fully integrating and maintaining this highly customizable housing software due to poor vendor support, lack of experienced technical staff, resources, or existing complex and broken organizational processes.

Avèro Advisors has partnered with numerous Public Housing Authorities across the nation to either optimize existing housing software or guide agencies through finding the right system that fits their organizational needs. With years of experience working in the PHA industry, Avèro has become a primary liaison with organizations, Emphasys, or other leading PHA software vendors. As a liaison or Project Manager, Avèro ensures that all processes are optimized, requirements documented, and vendor relationships and support managed to maximize the system’s value and achieve your mission.

Whether your Public Housing Authority is large or small, Avèro curates tailor-made solutions that have been expertly assessed, documented, and strategically organized to become part of your long-term IT strategy and team. Avèro creates trusted client partnerships that cultivate success in not only their organizations but communities.

WEBSITE: www.dynatouch.com

DynaTouch is a technology integrator and developer, specializing in secure, self-service kiosk solutions. Built from the ground up for Public Housing Authorities, our PHA OneStop Resident Self-Service Kiosks are tailored to the specific community needs of each PHA, with our expert team of professionals working alongside them every step of the way. Our COVID-19 Response Technology allows you to continue safe and effective operation of your housing programs while assisting and protecting your residents, applicants, and employees. The kiosk’s document management functions minimize the handling of paperwork and allow residents to fill out and sign digital applications, scan and upload recertifications, access online payments, and submit maintenance requests—all from a one-stop self-service customer kiosk. PHA OneStop Resident Self-Service Kiosk will reduce employee time dedicated to appointments, provide access to affordable housing assistance for those in need, and provide secure, contactless digital document collection.

EMAIL: joseph@allergytechnologies.com
WEBSITE: www.ATAHCNow.com

Allergy Technologies’ mission is to improve the environmental conditions in which people live. This focus led to the establishment of ATAHC™, a Program proven to successfully control and prevent the scourge of bed bugs in both affordable housing and other community and hospitality facilities. The Company’s flagship product, ActiveGuard™ Mattress Liners, is the only EPA-registered product labeled to deliver two-year bed bug and dust mite prevention, preventing future infestations by killing bed bugs and dust mites in the most challenging environments, such as affordable housing. Allergy Technologies will ultimately expand ATAHC by targeting asthma through reducing other structural pests’ asthma-triggering allergens, as well as addressing a raft of other health-related hazards by providing leadership in coordinating individual and professional services to residents in its communities.

A housing program partner for over 30 years, CGI partners with housing authorities to improve outcomes through consulting, technology and business process services. CGI serves as a Performance-Based Contracting Administration (PBCA) subcontractor, servicing over 25% of HUD’s Section 8 PBRA portfolio. Public housing authorities across the country partner with CGI to optimize delivery of their Housing Choice Voucher (HCV) Programs. CGI provides end-to-end HCV program administration or can support discrete tasks such as Housing Quality Standards inspections, re-examination case management, wait list management, applicant processing and selection, eligibility determination, rent reasonableness reviews, portability, landlord relations and payments, and more. We enable PHAs to continuously improve their programs and services through consultative support for critical functions such as program assessments and audits, SEMAP reviews, tenant mobility programs, tenant file audits, administration of emergency housing voucher (EHV) programs, and landlord recruitment and outreach. Our work is enabled by modern, web-based technology solutions that support your most complex business processes including HQS inspections, waitlist management, initial and annual re-certifications, communications and notification, and program analytics.

CGI enables you to digitally transform your operations and improve program outcomes through advanced technologies such as online portals, cloud-based solutions, systems modernization and integration, and data-driven decision-making tools designed specifically for the affordable housing industry.

CONTACT: Fradique A. Rocha, Co-CEO
EMAIL: fradique@cvrassociates.com
EMAIL: cvr@cvrassociates.com
WEBSITE: www.cvrassociates.com
CVR currently performs both HQS and UPCS inspections, providing agencies a solid solution for managing and optimizing inspections operations. Based on HUD regulations, we can design a solution that minimizes cost while maintaining unit integrity and compliance. CVR can provide ongoing inspections services as well as rent reasonableness surveys, compliance assessments and HQS enforcement. Our in-house software development staff has created a proprietary mobile application for conducting inspections. This application offers web-based inspectors and a route management tool, as well as an Inspections Portal. CVR’s Inspections Portal can be used for obtaining results, including photo documentation and Inspector notes, as well as other inspections related information. Additional services provided with the application include: storage of letters, reminder calls and emails for all inspections, the ability to generate reports and track abatements. Additional services include technical assistance, program management, strategic planning, operational assessments, process improvement, training, construction management, improved asset management practices and technology solutions.

Allergy Technologies' mission is to improve the environmental conditions in which people live. This focus led to the establishment of ATAHC™, a Program proven to successfully control and prevent the scourge of bed bugs in both affordable housing and other community and hospitality facilities. The Company’s flagship product, ActiveGuard™ Mattress Liners, is the only EPA-registered product labeled to deliver two-year bed bug and dust mite prevention, preventing future infestations by killing bed bugs and dust mites in the most challenging environments, such as affordable housing. Allergy Technologies will ultimately expand ATAHC by targeting asthma through reducing other structural pests’ asthma-triggering allergens, as well as addressing a raft of other health-related hazards by providing leadership in coordinating individual and professional services to residents in its communities.

WEBSITE: www.cvrassociates.com

CVR has been providing development services to public housing authorities, the U.S. Department of Housing and Urban Development (HUD), and the affordable housing industry for over 25 years. CVR’s high level of expertise has been confirmed by the fact that HUD has selected CVR, for the past seven years, as one of only a handful of firms to provide technical assistance to housing authorities across the country. CVR has assisted PHAs in the planning, preparation and successful implementation of over $2 billion of Rental Assistance Demonstration (RAD), Choice Neighborhood (CNI), HOPE VI, and other mixed-finance, community revitalization projects. The CVR team continues our RAD work with PHAs, large and small, on CHAPs that are in various stages – from working toward financing plans, to having closed and completed RAD-related operational, modernization and new construction transactions. Additional services include technical assistance, program management, strategic planning, inspection services, operational assessments, process improvement, training, construction management, improved asset management practices and technology solutions.

WEBSITE: www.nelrod.com

The Nelrod Company is a training and consulting company that assists agencies with such services as energy audits, physical needs assessments, utility allowance studies, rent calculations, fair housing trainings and much more.

Water Conservation Specialist LTD (Conserve) was formed in 1996 in order to establish a water management company which was responsive to the specific needs of the residential multi-family rental industry. Existing water conservation equipment was not capable of meeting the varying water pressure conditions existing at different properties, and within each property. Water conservation companies did not provide on-going support services which are necessary in order to maintain the reduced water consumption on a long term basis. The Conserve Program was designed to address these issues so that communities could rely upon the lowest possible water consumption on a daily basis. The Conserve Program has been designing and manufacturing water conservation equipment and support services for winders of steel doors with features to reinforce the door’s strength at an affordable price. Custom manufactured to withstand the use and abuse associated with being installed on multifamily housing. Keep intruders out and kids in with our robust Tough Tek Metals® Screens, designed to lower maintenance costs while increasing security. We pride ourselves on our ability to provide excellent customer service, quality, attractive and innovative products.
